RetroTINK LLC
San Diego, CA

Thank you so much for your purchase and support!

RetroTINK

Congratulations, you now own a RetroTINK 2X-MINI, a zero-lag upscaler for your retro console! To get started, plug the USB power cord, video cables and power up your console. The 2X-MINI will automatically detect your video source and display an image.

Check out our website: www.retrotink.com to download the full user manual, additional information and firmware updates.

If you need further assistance, please send an e-mail to retrotink2@gmail.com along with your order number and we would be glad to assist. Please consider leaving a review if you like our device.

Thank you again for making premium, boutique retro-gaming products possible.

-Mike
